

New Process Coating WCE

Manufacturing & Repairing with thermal spray

Benefits

- ❖ No distortion caused by low temperature while working
- ❖ No micro structure changing, reserving its quality
- ❖ Inexpensive, facile, fast which could save time in maintenance period that could extend operating period
- ❖ Onsite service
- ❖ Increase productivity

WE REPAIR MECHANICAL PARTS WITH THERMAL SPRAY

INDUSTRIES

- Steel Industries
- Palm Oil Industries
- Wood Industries
- Sugar Industries
- Cement Industries
- Heavy Industries
- Pulp & Paper
- Plastic / Rubber / Glass
- etc.....

COATING

- Metal & Spray
- Colmonoy
- Stainless Steel
- Bronze / Babbitt / Cupper
- Zinc / Aluminum
- etc.....

APPLICATION

- Medically Compatible
- Wear Coating
- Thermal Insulation
- Corrosion Resistance
- Abradables and Abrasive
- Chemical Resistance
- Surface Redimation
- Abrasive Wear Protection
- Thermal & Electrical Conductivity
- etc.....
