Engraving machine is a machine for making a roller for checkered strip mills in steel industry. In the past, most steel industries in Thailand make order a roller from abroad. Now, **West Coast Engineering Co., Ltd.** is a first manufacturer in Thailand producing the engraving machine.

Engraving Machine helps you saving

- Reduce transportation cost.
- Reduce time for order process from abroad.
- Can be repeated, slot engrave, on old roller after used in checkered strip mill.
- Maximum capacity at 8 rolls/month.
- Inexpensive cost.

We engineer your success
